Recommendation for Finn Wolff Kaysfeldt

In my capacity as owner of and managing director of Gallup A/S I have had the opportunity to work closely with Finn since I acquired the company in 1987 i.e. more than 13 years. Except for the last couple of years Finn has reported directly to me.

I have always been very fond of working with Finn and he has been a key member of the staff all through this period.

During these 13 years the company has grown considerably and the turnover today is almost ten fold of what it was back then. IT has played a very significant role in our development. When Finn and I started to work together Gallup had less than 10 IT-related work places. Today we have close to 400. Constant evolution of the IT systems has therefore been a key factor in our success.

Finn has again and again impressed me in a number of areas.

Finn has always kept himself informed of the latest development in terms of hard- and software and other IT related systems and issues. He has always been able to suggest, purchase and install configurations, which fitted our needs and also gave us room to grow. Since I did not myself know much about IT, I had to rely on Finn's recommendations. The information he provided was always very clear and well prepared. Over the years we have purchased lots of equipment and I cannot remember one incident in which we have had reason to regret a particular purchase.

In terms of purchasing Finn has always shown very good common sense and always been able to find the best possible value for money and often with very short notice. It is not an empty phrase, when I say that Finn has treated the company's money as if it was his own.

A crucial factor in any configuration is stability and as we interview 365 days a year and service many of our clients with continuous service which the access on-line, stability has been key to the financial success of the company and the clients satisfaction. Over the years we have naturally experienced periods, when our systems were down, but I am happy to say, that these periods have been few and always only a questions of hours. This record is very

Gallup

Gallup A/S er en del af Taylor Nelson Sofres Gruppen • Kontorer i mere end 35 lande
Masnedøgade 22-26 • DK-2100 København Ø • Telefon 39 27 27 27 • Fax 39 27 50 80
A/S reg.nr. 166.082 • VAT: DK 11 94 51 98 • CVR: 11 94 51 98 • gallup@gallup.dk • www.gallup.dk

much attributable to Finn, both in setting up the configurations, but also in terms of going to the office with very short notice even at the most inconvenient times.

Finally, I wish to emphasise how impressed I have been with Finn's willingness and ability to take a large workload on himself. Even though our IT systems grew and grew in terms of microcomputers, servers, networks, softwares and PC'es, Finn was able to keep the staff in the IT area at a minimum thanks to the ever increasing workload, that Finn took upon himself.

Apart from the above professional qualifications Finn has also proven himself to be a very good colleague and a very honest, kind, warm and pleasant human being indeed. Finn has good humour; works well under even extreme stress and has been very loyal to our company.

I can therefore give Finn my very highest recommendations based on more than 13 years of close co-operation.

Yours sincerely

René Spogård
